James M. Nicholson

Finance Director

City of Pataskala, Ohio

April 25-26, 2023

All too often, it seems like this!

COURSE OBJECTIVES

Participants will learn the following:

- Fiscal Officer's certificate requirements
- Competitive bidding requirements
- Prevailing wage thresholds
- Benefits of formalized policies

WHAT IS A FISCAL OFFICER'S CERTIFICATE?

- According to ORC §5705.41(D)(1), “... *no subdivision or taxing unit shall make any contract or give any order involving the expenditure of money unless there is attached thereto a certificate of the fiscal officer of the subdivision that the amount required to meet the obligation, ...has been lawfully appropriated for such purpose...*”
- In most cases, an approved purchase order (PO) serves as the fiscal officer's certificate.

WHAT IS A FISCAL OFFICER'S CERTIFICATE? (continued)

- Certificate must be signed (physically or electronically) by the fiscal officer (e.g., Finance Director, Treasurer, etc.).
- The document **must**:
 - Be dated on or before the transaction date
 - Contain language which certifies that the funds necessary to meet the obligation are currently in the treasury, or in the process of collection, and have been restricted (encumbered) to satisfy the obligation.

Example of Certification Language

Purchase Order Total: \$700.00

FINANCE DIRECTOR CERTIFICATION

It is hereby certified that at the time of the making of this contract or order and at the date of the execution of this certificate, the amount required to pay this contract or order has been appropriated for the purpose of this contract or order, and is in the treasury or in the process of collection to the credit of the fund free from any previous encumbrance.

Finance Director

Date

What Happens if the Certificate Date is after the Transaction Date?

- Technically, the organization is in violation of budgetary compliance regulations proscribed by the ORC.
- All is not lost, however. Fiscal officers can approve a 'Then & Now' certification of any PO up to \$3,000. Any transactions that would exceed the \$3,000 threshold would require your governing body to approve the 'T&N' by resolution or ordinance.
- It is always better to be proactive and have your employees submit requisitions beforehand, than to frequently request 'T&N' certifications.

Spending Authority Levels

- It is important that, as the Fiscal Officer, you are aware of the various levels of authority granted to the organization. Almost every organization will likely be different.
- In the City Pataskala, the City Administrator has discretion/authority to authorize contracts or purchases up to \$10,000. Contracts in excess of that amount require Council action (resolution).
- Purchases of a routine nature (e.g., natural gas, fuel, etc.) are generally exempt from such restrictions.
- Exigent circumstances (e.g., emergency) are typically the one exception to this rule. The exception, however, usually calls for the Administrative Officer to update the governing body at the Officer's earliest convenience.

Competitive Bidding

- Generally speaking, all contracts made by the governing authority of the organization for material and labor which exceeds \$50,000 are subject to competitive bidding procedures.
- Project/contract cannot be split for the purpose of avoiding competitive bidding requirements.
- Bids must be advertised in a newspaper of general circulation for not less than two (2) nor more than four (4) consecutive weeks.

Competitive Bidding (continued)

- Not required to select lowest total cost – ‘lowest responsive and responsible’ or ‘lowest and best’. Other factors, including intangibles, can be taken into account when awarding contract.
- Bids must be responsive, which is determined by examining the bid. It must comply with the specifications and instructions to bidders in all material respects, and must contain no irregularities or deviations that would affect the amount of the bid, or give the bidder a competitive advantage.

Competitive Bidding (continued)

- Formal bid documents must be prepared, which include the following:
 - Deadline for submitting proposals, along with date, time and location of pre-bid meeting and bid opening.
 - Other legal and miscellaneous documents, such as project contract, bid and performance bonds, non-collusion/delinquent tax affidavits, and subcontractor information.
 - Project plans/drawings, and timeline for project. Materials and quantities for the project.
 - Prevailing wage information
